EXPLANATORY STATEMENT PURSUANT TO SECTION 102(1) OF THE COMPANIES ACT, 2013 ("THE ACT")

The following Statement sets out all material facts relating to the Special Business mentioned in the accompanying Notice.

Item No: 4: Appointment of Mr. Alok Jain (DIN No. 07943366) as a Non-Executive Independent Director:

Mr. Mr. Alok Jain (DIN: 07943366) was appointed as an Additional Director in the Board meeting held on 16.11.2017. The Board of Directors has proposed the candidature of **Mr. Alok Jain (DIN No. 07943366)** as an Independent Director to be appointed under the provisions of Section 149 and 152 of the Companies Act, 2013.

The Company has received from **Mr. Alok Jain (DIN No. 07943366)** (i) consent in writing to act as Independent Director in Form DIR-2 pursuant to Rule 8 of the Companies (Appointment & Qualification of Directors) Rules 2014 (ii) intimation in Form DIR- 8 in terms of Companies (Appointment & Qualification of Directors) Rules, 2014 to the effect that he is not disqualified under sub-section (2) of Section 164 of the Companies Act, 2013 and (iii) a declaration to the effect that he meets the criteria of independence as provided in sub-section (6) of Section 149 of the companies Act, 2013.

Mr. Alok Jain (DIN No. 07943366) is appointed as a Director in Vintage FZE (India) Private Limited (Subsidiary Company) and holds no shares in the Company. The Resolution seeks the approval of members for the appointment of **Mr. Alok Jain (DIN No. 07943366)** as Independent Director of the Company for a term of 5 consecutive years pursuant to Section 149 and other applicable provisions of the Companies Act, 2013 and the Rules made hereunder. He is not liable to retire by rotation.

In the opinion of the Board of Directors, **Mr. Alok Jain (DIN No. 07943366)** proposed to be appointed, as an Independent Director, fulfils the conditions specified in the Companies Act, 2013 and the Rules made hereunder and also the provisions as laid down in listing regulation and he is independent.

A copy of the draft letter of appointment of **Mr. Alok Jain (DIN No. 07943366)** as an Independent Director would be available for inspection to the shareholders at the registered office of the Company on all working days (except Sundays and Public Holidays) between 11:00 a.m. and 1:00 p.m. till the date of the meeting.

The Notice and this Statement may also be regarded as a disclosure under SEBI regulations of the Listing Regulations.

None of the Directors of the Company in anyway, except **Mr. Alok Jain (DIN No. 07943366)** in his personal capacity for whom the Resolution relates, are interested or concerned in the Resolution.

Item No: 5: To consider and determine the fees for delivery of any document through a particular mode of delivery to a member:

As per the provisions of section 20 of the Companies Act, 2013 a document may be served on any member by sending it to him by Post or by Registered post or by Speed post or by Courier or by delivering at his office or address or by such electronic or other mode as may be prescribed. It further provides that a member can request for delivery of any document to him through a particular mode for which he shall pay such fees as may be determined by the company in its Annual General Meeting.

Therefore, to enable the members to avail of this facility, it is necessary for the Company to determine the fees to be charged for delivery of a document in a particular mode, as mentioned in the resolution.

Since the Companies Act, 2013 requires the fees to be determined in the Annual General Meeting, the Directors accordingly recommend the Ordinary Resolution at item no. 5 of the accompanying notice, for the approval of the members of the Company.

None of the Directors and/or Key Managerial Personnel of the Company and their relatives is concerned or interested, financially or otherwise, in the resolution set out at item no. 5 of the accompanying Notice.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Management Discussion & Analysis Report pursuant to Regulation 34(3) and 53(f).

FORWARD LOOKING STATEMENT

The Management of Alka India has prepared and is responsible for the financial statements that appear in this report. These statements are in conformity with accounting principles generally accepted in India.

The statements in this Management Discussion and Analysis describing the Company's objectives, projections, estimates and expectations may be 'forward looking statements' within the meaning of applicable laws and regulations. The Management has made these statements based on its assessment, expectations and projections about the future events. Wherever possible, it has tried to identify such statements by using words such as 'anticipate', 'estimate', 'expect', 'project', 'intend', 'plan', 'believe' and words of similar substance. Such statements, however, involve known and unknown risks, significant changes in political and economic environment in India or key markets abroad, tax laws, litigation, labour relations, exchange rate fluctuations, interest and other financial costs which may cause actual results to differ materially. The Management does not guarantee that these forward-looking statements will be realised, although it believes that it has been prudent in making these assumptions. The Management undertakes no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

1. Industry Structure and Development:

The Company's products can be classified under the Textile Products. The Company is taking all necessary steps to maximize the profitability of the Company Textile sector in India is one of the oldest industries, representing rich and diverse spectrum of activities and it plays a key role in Indian economy by way of significant contribution to GDP, manufacturing output, employment generation and export earnings. Thus textile industry is one of the largest source of employment generation in the country. The global focus is shifting to India due to cost and stability factors in Textile industry. The Government's positive steps are also expected to help this shift. The consumption of the textile products in the domestic as well as international market is expected to increase in the years to come.

The textile Industry, in general, had a negative impact due to the after effects of structural transformation that took place in the form of implementation of demonetization and GST. Further, post GST, import duty has come down sharply, thus making imports cheaper for the domestic industry which has placed pressure on selling prices for the textile industry as a whole. Consumers' preference to go in for e-commerce / on-line sales and reduction in export benefits have reduced margins, thus hindering the promotion of exports.

1.1 Indian Economy

India's economy picked up some pace in FY 2017-18 and the gross domestic product growth was better than FY 2016-17. The structural reform of The Goods and Services Tax (GST) within a year of demonetisation is expected to provide a boost to the economic growth and investments in the long run. With an improving business ecosystem, stable macroeconomic indicators and a liberal FDI regime, foreign capital inflow has provided impetus to the domestic economy. According to World Bank's Global Economic Prospects report, India's GDP is expected to rise to 7.4% in FY 2018-19 and 7.8% in FY 2019-20.

Indian Textile Industry

The Indian textiles industry is among the oldest in the country. It is projected to reach USD 230 billion by 2020 from around USD 120 billion. Currently, the domestic textiles industry contributes 10% to the manufacturing output of the country, generates about 4% to its GDP and employs more than 45 million people. Importantly, the sector contributes 15% to the export earnings of India. Mitigating the repercussions of currency fluctuation remains a challenge. Exports have been a core feature of India's textile sector. The Indian textiles export market, estimated at \$18 billion, is expected to grow at a CAGR of 4% compared to the global CAGR of 3% over 2016-26.

2. Opportunities and Threats:

Our product is intermediary product for user industries and the development will be based on dependent other industries. The Company is making continuous efforts to trading different grades of products to meet the requirement of its customers. The Company is making efforts for exploring other avenues to increase its sales of different varieties of Garments. Any changes in international price of its products and fluctuations in foreign exchange will have effect on the profitability of the Company.

China's slow investment in textiles and shift to high tech industries will have a positive impact on Indian exports in the coming years.

Further, USA's withdrawal from Trans-Pacific Partnership (TPP) and chances of termination of North American Free Trade Agreement (NAFTA) between USA - Canada - Mexico for free trade will increase their cost due to application of import duties amongst their countries. Consequently, Indian industry should have opportunity to promote its own exports.

The international brands like Marks & Spencer, IKEA, Zara, H & M, Walmart etc. who have multiple sources to cover fabrics and convert into garments in Bangladesh, Vietnam and Cambodia etc. for retailing in India at better prices will make it difficult for Indian textile industry to compete with them apart from e-commerce / online business and cheaper imports.

3. Segment or Product wise performance:

The Company operates in single business segment i.e. Textile comprising cotton, yarn, fabrics etc.

4. Outlook:

The outlook for the Company appears bright on a long term basis. The Company is hopeful that its performance in the years to come would be encouraging, as the Company is planning to start the trading in bullion & textile garments in national as well as international market.

The Company has looking for investment in other sector The focus is on cost optimization, introduction of new markets and offering of new product development with special fiber, other than cotton, with sustainable finishes. According to the International Monetary Fund (IMF), the global economic activity is picking up with a long awaited cyclical recovery in investment, manufacturing, and trade. It has projected economic activities to improve in both advanced economies as well as EMDEs in CY 2017 and CY 2018, with global growth projections at 3.5% and 3.6%, respectively.

5. Business Risk and Risk Management:

The Company is exposed to a number of risks. Some key risks have been mentioned below:

1. The Raw material prices are market driven being an agricultural product and any natural calamity such as drought/ flood will affect the profitability of the Company.
2. GST has led to reduction in import duties across the segments, leading to a serious threat of imports from China, Indonesia, Thailand and Bangladesh. Downward revision in duty drawback rates has added to the woes of the Indian Textile sector. The poor global retail sales and slow down of business in the domestic market, are matters of concern for the industry
3. Adverse volatility in raw material prices can affect the performance.
4. Uncertain availability of PTA from domestic suppliers on account of their frequent breakdowns can reduce capacity utilization at times.
5. Any change in the fashion will also have bearing on the profitability of the Company.
6. Risk is an inherent part of any business. **Annexure B to the Independent Auditors' Report of the even date
on the standalone financial statement of Alka India Limited**

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

To the member of Alka India Limited

We have audited the internal financial controls over financial reporting of **Alka India LIMITED** ("the Company") as of March 31, 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**SIGNIFICANT ACCOUNTING POLICY AND NOTES TO ACCOUNTS
FOR THE YEAR ENDED MARCH 31, 2018**

1. BASIS OF PREPARATION

The financial statements of the company have been prepared under historical cost convention on the accrual basis of accounting, are in accordance with the applicable requirements of the Companies Act 2013 and comply in all material aspects with the Indian Accounting Standards (hereinafter referred as to 'Ind AS') as notified by ministry of corporate affairs in pursuant to section 133 of Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules 2016.

The accounting policies have been consistently applied unless otherwise stated. All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Division II of Schedule III to the Act 2013. The Company considers 12 months to be its normal operating cycle for the purpose of current or non-current classification of assets and liabilities.

1.1 Summary of significant accounting policies

(A) Basis of Preparation of Financial Statements

During the year ended 31 March 2018, the Division II of Schedule III notified under the Companies Act, 2013 has become applicable to the Company, for preparation and presentation of its financial statements. The adoption of Division II of Schedule III does not impact recognition and measurement principles followed for preparation of financial statements.

(B) Use of Estimates

The preparation of financial statements in conformity with Indian Accounting Standards requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

(C) Property plant and Equipment's

Property, Plant and Equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises of purchase price inclusive of taxes etc. up to the date the asset is ready for its intended use. Depreciation is provided under written down value method at the rates and in the manner prescribed under Schedule II to the Companies Act, 2013.

(D) Depreciation Tangible Fixed Assets.

Depreciation on fixed assets is calculated on a Straight-Line method at based on the useful lives estimated by the management, or those prescribed under the Schedule II of the Companies Act, 2013, The Company has used the following rates to provide depreciation on its fixed assets.

Vehicles 10 Years

(E) Intangible Assets

Intangible assets acquired by the Company are stated at cost less accumulated amortisation less impairment loss, if any. The determination of useful life is based upon Management's judgment and includes assumptions on the timing and future estimated revenues to be generated by these assets.

Other intangible assets, which comprise internally generated and acquired software used within the Entity's digital, home entertainment and internal accounting activities, are stated at cost less amortisation less provision for impairment. The amortisation charge is recognized in the Statement of profit and loss.

(F) Borrowing Costs

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

(G) Impairment of non-financial assets

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash generating units). As a result, some assets are tested individually for impairment and some are tested at the cash generating unit level. All individual assets or cash generating units are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

The carrying amounts of assets are reviewed at each balance sheet date to determine if there is any indication of impairment based on external or internal factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount which represents the greater of the net selling price of assets and their 'value in use' in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Life time ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider all contractual terms of the financial instrument (including

prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the Statement of profit and loss. This amount is reflected under the head 'other expenses' in the Statement of profit and loss.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis

(H) Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on risk exposure arising from financial assets like debt instruments measured at amortised cost e.g., trade receivables and deposits.

The Company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables or contract revenue receivables. The application of simplified approach does not require the Company to track changes Purchase price is assigned using a weighted average basis. Net realizable value is defined as anticipated selling price or anticipated revenue less cost to completion.

(I) Investments in subsidiaries, Associates and Joint Ventures:

Investments in subsidiaries, associates and joint ventures are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries, associates and joint venture, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

(J) Inventories

Inventories comprise of traded goods, stores and spares are valued at cost or at net realisable value whichever is lower. Cost of traded goods, stores and spares is determined on weighted average basis. Stores and spares, which do not meet the definition of property, plant and equipment, are accounted as inventories. Net realizable value is the estimated selling price in the ordinary course of business and estimated costs necessary to make the sale.

(K) Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized:

(L) Accounting for Taxes on Income

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961. Current and deferred tax shall be recognized as income and expenses and included in profit and loss for the period, except to the extent that the tax arises from (a) a transaction

or event which is recognized in the same or a different period, outside profit or loss, either in other comprehensive Income or directly in equity or (b) a business combination. Deferred taxes recognized in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purpose and corresponding amounts used for taxation purpose except to the extent it relates to business combination or to an item which is recognized directly in equity and in other comprehensive Income.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the assets can be utilized. A deferred tax assets shall be recognized for the carry-forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilized. Deferred tax assets are reviewed at each reporting date and Reduced to the extent that it is no longer probable that the related tax benefit will be Realize. . A deferred tax liability is recognized based on the expected manner of realization or settlement of carrying amount of assets and liabilities

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority.

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The Company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset in accordance with the Guidance Note on Accounting for credit available in respect of Minimum Alternative Tax

under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement." The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

(M) Foreign Currency Translation

Transactions in foreign currencies are translated at the rates of exchange prevailing on the dates of the transactions. Monetary assets and liabilities in foreign currencies are translated at the prevailing rates of exchange at the balance sheet date. Non-monetary items that are measured at historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Any exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were initially recorded are recognized in the Statement of profit and loss in the period in which they arise. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

The Company's functional currency and the presentation currency is same i.e. Indian Rupee.

(N) Retirement and Other Employee Benefits

Company doesn't have any employee who has completed 5 year of continues services for provision for gratuity and other benefits. And Contributions payable by the Company to the concerned government authorities in respect of provident fund, family pension fund and employee state insurance are charged to the profit and loss account if any.

(O) Segment reporting

The company's business activity falls within a single primary segment the disclosure requirements of Indian Accounting Standard ('Ind AS-108') "Operating segment is not applicable.

(P) Provisions

Recognition of Provision:

A provision is recognized when the company has i) a present obligation as a result of past event, ii) it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and iii) a reliable estimate can be made of the amount of the obligation. Where the effect of the time value of money is material, the amount of provision shall be the present value of the expenditures expected to be required to settle the obligation. Provisions shall be reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision shall be reversed.

Where the company expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement.

(Q) Cash and cash equivalents

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

(R) Measurement of EBITDA

As permitted by the Guidance Note on the Revised Schedule of the Companies Act, 2013, the company has elected to present earnings before interest, tax, depreciation and amortization (EBITDA) as a separate line item on the face of the statement of profit and loss. The company measures EBITDA on the basis of profit / (loss) from continuing operations. In its measurement, the company does not include depreciation and amortization expense, finance costs and tax expenses.

7

The basic earnings per equity share are computed by dividing the net profit attributable to the equity shareholders for the reporting period by the weighted average number of equity shares outstanding during the reporting period.

The number of shares used in computing diluted earnings per share comprises the weighted average number of shares considered for deriving basic earnings per share and also the weighted average number of equity shares, which may be issued on the conversion of all dilutive potential shares, unless the results would be anti dilutive.

The earnings per share are calculated as under:

Particulars	31-Mar-18	31-Mar-17

**CONSOLIDATED SIGNIFICANT ACCOUNTING POLICY AND NOTES TO ACCOUNTS
FOR THE YEAR ENDED MARCH 31, 2018**

1. BASIS OF PREPARATION

The financial statements of the company have been prepared under historical cost convention on the accrual basis of accounting, are in accordance with the applicable requirements of the Companies Act 2013 and comply in all material aspects with the Indian Accounting Standards (hereinafter referred as to 'Ind AS') as notified by ministry of corporate affairs in pursuant to section 133 of Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules 2016.

The accounting policies have been consistently applied unless otherwise stated. All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Division II of Schedule III to the Act 2013. The Company considers 12 months to be its normal operating cycle for the purpose of current or non-current classification of assets and liabilities.

1.1 Summary of significant accounting policies

(A) Basis of Preparation of Financial Statements

During the year ended 31 March 2018, the Division II of Schedule III notified under the Companies Act, 2013 has become applicable to the Company, for preparation and presentation of its financial statements. The adoption of Division II of Schedule III does not impact recognition and measurement principles followed for preparation of financial statements.

(B) Use of Estimates

The preparation of financial statements in conformity with Indian Accounting Standards requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

(C) Property plant and Equipment's

Property, Plant and Equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises of purchase price inclusive of taxes etc. up to the date the asset is ready for its intended use. Depreciation is provided under written down value method at the rates and in the manner prescribed under Schedule II to the Companies Act, 2013.

(D) Depreciation Tangible Fixed Assets.

Depreciation on fixed assets is calculated on a Straight-Line method at based on the useful lives estimated by the management, or those prescribed under the Schedule II of the Companies Act, 2013, The Company has used the following rates to provide depreciation on its fixed assets.

Vehicles 10 Years

(E) Intangible Assets

Intangible assets acquired by the Company are stated at cost less accumulated amortisation less impairment loss, if any. The determination of useful life is based upon Management's judgment and includes assumptions on the timing and future estimated revenues to be generated by these assets.

Other intangible assets, which comprise internally generated and acquired software used within the Entity's digital, home entertainment and internal accounting activities, are stated at cost less amortisation less provision for impairment. The amortisation charge is recognized in the Statement of profit and loss.

(F) Borrowing Costs

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

(G) Impairment of non-financial assets

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash generating units). As a result, some assets are tested individually for impairment and some are tested at the cash generating unit level. All individual assets or cash generating units are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

The carrying amounts of assets are reviewed at each balance sheet date to determine if there is any indication of impairment based on external or internal factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount which represents the greater of the net selling price of assets and their 'value in use' in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Life time ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider all contractual terms of the financial instrument (including

prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the Statement of profit and loss. This amount is reflected under the head 'other expenses' in the Statement of profit and loss.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis

(H) Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on risk exposure arising from financial assets like debt instruments measured at amortised cost e.g., trade receivables and deposits.

The Company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables or contract revenue receivables. The application of simplified approach does not require the Company to track changes Purchase price is assigned using a weighted average basis. Net realizable value is defined as anticipated selling price or anticipated revenue less cost to completion.

(I) Investments in subsidiaries, Associates and Joint Ventures:

Investments in subsidiaries, associates and joint ventures are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries, associates and joint venture, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

(J) Inventories

Inventories comprise of traded goods, stores and spares are valued at cost or at net realisable value whichever is lower. Cost of traded goods, stores and spares is determined on weighted average basis. Stores and spares, which do not meet the definition of property, plant and equipment, are accounted as inventories. Net realizable value is the estimated selling price in the ordinary course of business and estimated costs necessary to make the sale.

(K) Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized:

(L) Accounting for Taxes on Income

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961. Current and deferred tax shall be recognized as income and expenses and included in profit and loss for the period, except to the extent that the tax arises from (a) a transaction or event which is recognized in the same or a different period, outside profit or loss, either

in other comprehensive Income or directly in equity or (b) a business combination. Deferred taxes recognized in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purpose and corresponding amounts used for taxation purpose except to the extent it relates to business combination or to an item which is recognized directly in equity and in other comprehensive Income.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the assets can be utilized. A deferred tax assets shall be recognized for the carry-forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilized. Deferred tax assets are reviewed at each reporting date and Reduced to the extent that it is no longer probable that the related tax benefit will be Realize. . A deferred tax liability is recognized based on the expected manner of realization or settlement of carrying amount of assets and liabilities

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority.

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The Company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset in accordance with the Guidance Note on Accounting for credit available in respect of Minimum Alternative Tax

under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement." The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

(M) Foreign Currency Translation

Transactions in foreign currencies are translated at the rates of exchange prevailing on the dates of the transactions. Monetary assets and liabilities in foreign currencies are translated at the prevailing rates of exchange at the balance sheet date. Non-monetary items that are measured at historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Any exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were initially recorded are recognized in the Statement of profit and loss in the period in which they arise. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.
